CHICAGO IS DOOMED!

A Prophetic Revivalist Predicts Its Destruction by a Huge Lake Wave--San Francisco Will Also be Destroyed.

SAN FRANCISCO, Jan. 31.—An Oakland revivalist named Erickson, is predicting that San Francisco, Oakland, Alamada and Chicago, will all be destroyed eight days from date. The three western cities will have a big earthquake, followed by a tidal wave, which will destroy all the property and people except the elect who flee to the mountains. Chicago will be submerged by a huge wave from Lake Michigan.

The prophet says the Lord gave him a vision of the destroyed cities, and also of the end of the world in 1896. Chicago will not be rebuilt, he says, but towns will be started on the opposite side of the river, one of which will be called "Lake Michigan destroyed." Neither will have more than 25,000 people.

Before the end of the world comes he predicts wars in Europe that will last till the crash takes place. He is an ignorant fanatic, but many deluded Oakland people are already arranging their affairs and buying tents for the hergia to the mountains.

SLY SILCOTT.

The Defaulting Cashier of the House Living at Terrebonne, Quebec, With His Guilty Love.

TERREBONNE, Quebec, Jan. 31.—C. E. Silcott, the cashier of the sergeant-at-arms office, who absconded from Washington on November 30 with $96,000, has been found. He is stopping at the house of Mr. Thiballs, the father of the woman with whom Silcott eloped from Washington. The woman is also domiciled here.

Miss Thiball's parents seem to be still unconscious of their daughter's fall and apparently believe that she is the wife of the man whom she is said to have lured to his ruin. In an interview last night Silcott said:

"The charge of forgery is bosh. When I left Washington for New York I had not the remotest idea of leaving the United States. As proof of this I point to the fact that on the Wednesday before Thanksgiving I drew $36,000, and with $14,000 of this I took up notes of members which had been discounted in bank. As to the other money I am accused of decamping with I assure you I had but very little when I left New York."

Silcott wanted it denied that he was a big winner at the races. On the contrary he lost heavily. He only went to the races to keep up and be a hale fellow with the members who are now running him down. He defies the detectives and says the best legal advice in Canada assures him that he has committed no extraditiable offense. He concluded, "The day will come when I will not appear as black as I am painted."

VOORHEES AND GRAY.

The Two Statesmen Meet at Indianapolis--The Latter Not in the Field for Senatorial Honors.

CHICAGO, Jan. 31.—A Tribune special from Indianapolis says, a conference between Senator Voorhees and ex-Governor Gray was held here last evening, at the residence of the latter. The senator arrived in the city yesterday afternoon, and after stopping for a few minutes at a hotel, proceeded to the residence of ex-Governor Gray. The call was prolonged through nearly two hours. At its conclusion an attempt was made to interview Voorhees, but he would not talk, and soon left the city for Terre Haute.

Ex-Governor Gray was called upon last night and asked if he had agreed to withdraw from the senatorial contest. He said, "It has been all mere supposition that I was in the field as a candidate for the senatorship. I have never said that I was a candidate. The feeling between Senator Voorhees and myself is friendly, and I shall give him my hearty support."

In consideration of this withdrawal of Gray's opposition to the candidacy of Voorhees' re-election it is understood that the senator has pledged the ex-governor his support as a candidate for the nomination of vice president in 1892.

Charged With Lynching.

EVANSVILLE, Tex., Jan. 31.—The eight men charged with lynching J. H. Keyes, near Healdtown, I. T., the 18th of November last, will be held without bail to answer a charge of murder. They are all farmers of good standing.

INDIANAPOLIS, Ind., Jan. 21.—A prize fight occurred near here last night between Michael Corkins, of this city, and Jimmy Carroll, of Chicago, for $100 a side and the gate receipts. It was witnessed by about 200 persons. The police interfered, but when the combatants promised to use four ounce gloves they were allowed to proceed. Fourteen rounds were fought and the match was declared a draw.

REED'S RULINGS

Still the Main Topic of Discussion and Keep the National House in an Uproar.

WASHINGTON, Jan. 31.—The house was far more orderly to-day. The democrats introduced filibustering tactics, but they proceeded in an orderly way. The same interested crowd thronged the galleries and the corriders of the capitol.

Significant smiles flitted across the faces of several members when Chaplain Milburn opened the proceedings of the house at noon in a prayer in which he invoked wisdom to guide the members in their deliberations.

The galleries as on the previous two days were crowded. Those who expected a repetition of the scenes of yesterday, during the reading of the journal, were disappointed, for nothing happened more exciting than two demands from Mr. Bland to have read the names of those who voted on the various motions yesterday, and also the names of those present and not voting.

The clerk in reading the names was obliged, for convenience, to obtain the congressional record and Mr. Outhwaite, of Ohio, objected to this on the grounds that as the journal was what the house would be asked to pass upon, it should not be made up from the record. The speaker hoped that Mr. Othwaite would not object, but the latter persisted and Mr. Reed scored a laugh by saying: "The gentleman can have his own way."

The clerk then read the names from the official yea and nay slip. As soon as the clerk finished the reading Mr. McKinley was on his feet with a motion to approve the journal. He demanded the previous question. Mr. Springer was ready with a motion to adjourn and proceeded to speak upon it. The speaker interrupted him with the remark that the gentleman, meaning Mr. Springer, knew that a motion to adjourn was not debateable.

"But there are no rules," was the retort.

"There are rules," was the calm reply of Speaker Reed.

"What are they?" demand Mr. Springer, and, in answer, the speaker sta ted that according to rules of parliamentary law, a motion to adjourn was not debateable. He then put the motion to adjourn. Division was called for, and Mr. McKinley demanded the yeas and nays. All this was a repetition of the early proceedings of yesterday.

A dozen democrats shouted that a motion to adjourn had been put, the speaker managed to start the motion of Mr. McKinley for the approval of the journal. This seemed to make Mr. Bland furious. He shook both fists at the speaker, calling out that his action was a curse on the house.

Loud applause from the democrats followed the remark. Some people in the galleries hissed. Quiet was restored when the clerk began to call the roll, the republicans having ordered the ayes and nays. When the speaker announced that the yeas were 160, and proceeded to count in the democrats who were present.

Mr. Bynum, of Indiana, arose in his seat and waited until Mr. Reed had finished. Amid jeers from the democrats, the speaker announced the journal approved, and then recognized Mr. Bynum, who had been calling patiently for recognition. Coming to the front of the house, Mr. Bynum delivered what was probably the most bitter personal tirade ever made on the floor of the house.

Mr. Bynum had been recognized on the question of personal privelege, but he branched off into an arraignment on the republican party. He said that the speaker had refused to recognize his motion to adjourn in defiance of parliamentary procedure and in defiance of right and justice. The speaker's rulings he characterized as arbitrary, outrageous, damnable and in keeping with the acts of the republican party.

The speaker called Bynum to order, but he seemed to be emboldened by the iterperteion and refused to desist. He told the speaker that he mutiliated the records of the house to serve his purpose—to carry out the scheme of a tyrant and that he was backed by a mob, meaning the republican members.

Lampson Ousted.

COLUMBUS, O., Jan. 31.—The hearing in the Marquis-Lampson contest case for the lieutenant governorship was concluded in the Ohio senate last evening, and Lampson (rep.) was ousted by a strict party vote. The republican members filed a number of protests against the manner of proceeding, and the conclusion was attended with stormy scenes. Lampson gave notice that the case would be carried to the supreme court.

LIVING PICTURES.

A Delightful Entertainment Given at the Y. M. C. Hall.

A comfortable crowd attended the entertainment of "Living Pictures," at the City Y. M. C. A. hall last night.

Miss M. E. Tibbals, the art teacher, to whose the conception the novelty can be credited, is deserving of compliment for introducing an entertainment so original and pleasing.

The living pictures were persons appropriately costumed and "prepared" to represent famous paintings from the brushes of the old masters.

Musical numbers, under the direction of Prof. W. F. Heath, were interspersed throughout the entertainment. They consisted of a piano solo, by Miss Jennie Ninde; vocal solo, by Professor Heath; zither solo, by Mr. W. Minckler, and a cornet solo, by Dr. Todd.

The living pictures appeared behind a large frame, constructed for the purpose, and the remarks upon each "painting" were made by Judge R. S. Taylor in the happy strain that is peculiarly his own. The living pictures were represented as follows:

"Nun and Novice," by Miss Belle Clark and Miss Anna Bond.

"We Won't Stand," Lura Fee and Charlie Alderman.

French Peasant and Maid—Miss Clara Webb.

Neapolitan Boy—Miss Emma Crawford.

Penelope Bookby—Miss Myrtle Long.

High Priest, (ommitted) would have been represented by Mr. Henry.

Typical New England Judge—M. V. B. Spencer.

The Street Arabs—Masters Dan Hayden, Harry Alderman and Ralph Bond.

From Long Ago—Misses Sadie Mahin and Lettie Pepple.

The Old Story—Miss May Seaman and Mr. Walter Carver.

The Turk—Mr. Pyke.

A Courtier—Mr. Will Mahin.

The Roman—Mr. Walter Carver.

Portrait of a Lady—Mrs. Prof. Heath.

Ideal Head—Miss Alice Knause.

King and Councellor—Mr. G. W. Pixley and Prof. W. F. Heath.

The "Song at Twilight" was to be a fitting finale, but two old characters, which were necessary, could not be procured.

DAVIDSON'S DEED.

Thomas Davidson, Charged With Murder, Releases All Interest in His Dead Uncle's Estate.

Thomas Davidson, who is now in the county jail on the charge of murdering his uncle, Thomas Davidson, near Arcola last fall, was, it will be remembered, at one time awarded eighty acres of land by his uncle. After this, trouble of some kind arose between the two and the uncle commenced proceedings to get the property back into his own name, but before the case came to trial old Davidson met his death.

Yesterday young Davidson deeded back to the estate not only the eighty acres which was in dispute, but also his entire interest in the old man's property. The senior Davidson had besides about 160 acres in which the nephew would have had an interest, and this interest he released. The deed was made in consideration of $500.

The charge of murder which now stands against the prisoner Davidson will be investigated at the coming session of the grand jury.

THE PERU HOSPITAL.

General Manager Hayes Favors Its Removal to This City.

A gentleman of this city who returned a few days ago from St. Louis stated to a SENTINEL reporter that he had been in consultation with General Manager Hays of the Wabash.

Mr. Hays said among other things that he was in favor of removing the Wabash railroad hospital from Peru to Fort Wayne; but he furthermore added that he did not relish the animus that is being belched forth at the Wabash over their right to property.

So long as attempts are made to stab the Wabash, much had not ought to be expected of the road. Under the present management the road is doing better than it ever did.

A Cold Wave.

WASHINGTON, Jan. 31.—For Indiana: Light local showers, followed by fair, colder weather; northwesterly winds, with a cold wave.

The storm which was central north of Dakota yesterday morning, is now central on Lake Huron. The storm is attended by light rain in the lake and cold wave in the northwest.

The services at the Christian chapel last night were interesting. Subject to night: "Conversion of Lydia."

HIS LAST RUN.

Nickel Plate Engineer Chas. Gorman Struck Down With Heart Disease in His Cab and Dies Soon Afterward.

Engineer Charles Gorman, of the Nickel Plate railroad, died very suddenly at Hammond, a small station west of this city, at 8:40 o'clock this morning.

He was standing in the cab of his engine, engaged in the performance of his duties, when he was stricken with heart disease and fell to the floor. His fellow trainmen at once came to his assistance and he was removed to the caboose of the freight train which his engine was pulling. Here he died a few moments afterward.

Mr. Gorman was a young man and has been boarding at No. 8 Mechanic street, Nebraska, in this city. He was unmarried and had a large circle of friends in this city, to whom his death will be a surprise, and it will be received with sadness, for he was a general favorite.

His remains were brought to this city this afternoon and they will be taken to Southern Ohio, near Cincinnati, his former home, for burial. Engineers Micheal McCarthy and Frank Murphy will accompany them. Mr. Gorman was a member of the Brotherhood of Locomotive Engineers and the funeral arrangements will be under the charge of that organization.

LATER.

Mr. Gorman left here yesterday at noon. He had lately recovered from a two weeks' illness, and just as he was to take his train for the west he remarked to Foreman P. J. Fallon that he was not feeling well, but he felt as if he ought to go on duty.

He was returning from Chicago when he was stricken down at Hammond. His remains will be taken to Blanchard, Ohio, where his mother resides, for burial. His brother, John, is in the superintendent of motive power's office at Cleveland, and will accompany the remains to Blanchard.

The deceased was thirty-six years old and was one of the best engineers on the Nickel Plate.

THE FIRE RECORD.

The Business Portion of Covington, Neb., Wiped Out--Other Fires.

COVINGTON, Neb., Jan. 31.—Eight saloons, three wholesale liquor houses and three restaurants, composing the principal business portion of the town, were burned early yesterday morning. Loss, $50,000; insurance $20,000. Nearly all the liquor was destroyed, and in consequence Sioux City will be very dry for a day or two.

DAVENPORT, Ia., Jan. 31.—Twenty thousand bushels of barley and malt were scorched or soaked by the burning of the malt house of the Bosch grain company here yesterday. The fire originated in the kilns. There is an insurance of $20,000 on the contents of the building, but it will not cover the loss.

FAVORING BRICK PAVEMENT.

A Petition Circulated Among East Wayne Street Property Owners.

Mr. E. B. Kunkle is to-day circulating a petition among the property owners of East Wayne street for a fire brick pavement on that thoroughfare.

At 2 o'clock Mr. Kunkle informed a SENTINEL reporter that he had the signatures of a large number and that a brick pavement is assured. The property owners will have a meeting to-night.

CORONER'S VERDICT.

In the Columbus Natural Gas Disaster--Carlessness Charged.

COLUMBUS, Ohio, Jan. 31.—Coroner Egan this morning rendered his verdict in the natural gas disaster of last week, by which five persons lost their lives and forty or more were injured. He finds that the explosion was directly due to the gross carelessness of Contractor J. C. Gibney, who laid the pipes, in entirely failing to calk one of the joints.

Funeral Notice.

The funeral of the late Henry Schone will occur Monday at 8:30 o'clock, from the house, 227 East Washington street, and at 9 o'clock from St. Mary's church. Rev. Father Oechtering will officiate. The funeral will be conducted under the auspices of the St. Bartholomew Benevolent association, the Knights of St. Charles and the Old Settlers. The pallbearers will be John Baker, John Stier, Henry Stier, Henry Heitwinkle, Wm. Zahn and Joseph Kuttner.

The remains will lie in state at the residence to-morrow afternoon from 4 o'clock until Monday morning.

"MAMMA," said a little boy, "I'm so cold that my teeth are tittering."

A BANNER PRESENTATION.

Summit City Lodge, A. O. U. W., Celebrate Their First Anniversary.

Summit City lodge No. 36, A. O. U. W., celebrated their first anniversary last evening, at the hall, 106 Calhoun street.

A most entertaining program was rendered, consisting of a zither solo by Prof. Minckler, a solo by Miss Bates, a recitation by Miss Fessenden and address by Rev. S. A. Northrop.

These exercises were preceded, however, by a statement from Mr. N. Conover, reciting the history of the order and alluding to its present healthy and flourishing condition. During the exercises Past Master Workman Dr. McCormick occupied the chair.

The surprise of the evening rested upon the presentation of a beautiful banner to the lodge, the donors being the ladies who are interested in the society. Mrs. George R. Hench made the presentation speech, and the gift was accepted by the society through Rev. Northrop, who fitly responded, by request, in the absence of Dr. A. P. Buchman.

A supper was served and a sociable time followed. Master Workman George R. Hench was present, and helped in looking to the welfare of those present, including reporters.

The lodge can congratulate itself for having celebrated the first anniversary in a very successful manner.

MRS. WILLIAM JACOBS.

A Pioneer Resident and a Noble Woman Passes Away.

This morning at 8 o'clock, at the residence, 171 East Wayne street, occurred the death of Mrs. Jacobs, widow of the late Wm. Jacobs, and mother of John Jacobs, the well known ex-shoe merchant. The deceased was born at Wooster, Ohio, and came to Fort Wayne with her husband about 1848, residing here ever since. Her husband established the "Jacobs Shoe Store" at the corner of Calhoun and Columbia street, when a small frame building stood on the present site of the Keystone block. Three children survive her as follows: John H., Mrs. Howenstine, and Miss Emma Jacobs.

Mrs. Jacobs was a member of the First Presbyterian church.

WORLD CHAMPIONSHIP.

The Coming Shooting Contest Between Erb and Beck.

A competitive shoot will be held at Lafayette on February 20, the principals of which will be Fred Erb, jr., of Lafayette, and J. C. Beck, both of whom are crack shots.

The contest will be for the championship of the world, in live bird shooting. Fifty live birds will be shot at.

The honor at present belongs to Mr. Erb, who has the prize silver urn, which was presented by the American Field, at a cost of $600. Erb won the championship from C. W. Budd, of Des Moines, Iowa.

The event is attracting a great deal of notice in this city, and a large number from here will attend, among whom will be W. W. Watson, W. R. Durfee, F. I. Brown and R. C. Ellenwood.

CHICAGO MARKET.

CHICAGO, Jan. 31.—Wheat: January, 74⅜; February, 74¾; May, 78¼@78⅝. Corn: January, 29; February, 29; March, 29⅝; May, 31½@31⅝. Oats: January, 20¾; Feb. 21; May, 22⅝. Short ribs: January, $4.72½; February, $4.72½; March, $4.77½; May, $4.92½.

THEY don't mince matters much in the untrammeled West. The following advertisement appeared in a Kansas City paper the other day: Physician wanted—Immediately, to take charge of the largest country practice in Kansas, in an eastern border county; nine graveyards within the limits; no competition."

CHIEF ARTHUR, of the Brotherhood of Locomotive Engineers, is a short, compactly built man, about 50 years of age, with gray hair and short-cropped beard. He dresses fashionably and in excellent taste, and looks more like a banker than the head of nearly 30,000 engineers.

HIS elevation to the Senate has made no change in the quiet ways of Judge Moody, of Deadwood, S. D. He is a pleasant-looking, quiet old gentleman, wearing a silk hat, and gray hair and whiskers, and he still possesses the amiability of manner to which his success in life is greatly due.

FRIDAY, JAN. 31, 1890.

FOUR weeks from to-morrow is Washington's birthday.

THE birthday of Abraham Lincoln occurs February 12th.

TWO BANKS went to the wall in New York city yesterday.

THE first month of the new year ends with the close of this day.

THE Gresham men have captured the Indiana republican committee.

SUNDAY will be ground hog day. Will the little fellow see his shadow?

CHAIRMAN MICHENER was re-elected to that position last evening by the state republican central committee.

THE best method of paving the streets of the city is a question which is receiving a great deal of attention at present.

OUR merchants have lost thousands of dollars worth of trade this winter on account of the bad condition of the country roads.

EX-POSTMASTER GENERAL DON M. DICKINSON predicts that the democrats will sweep the west at the election next fall on the tariff issue.

THE first cash Millionaire John D. Rockefeller ever had was a quarter, which he is said to have earned working for a farmer to get money to go to the circus. He was then a poor boy, living near Owego, N. Y.

GENERAL MASTER WORKMAN POWDERLY denies that he is seeking office of any kind, and thinks that the report that he was to run for governor of Pennsylvania on the democratic ticket was started by some wag.

SPEAKER REED'S ruling created a rumpus in the house and the congressmen had a high old time. Reed ignored precedents and declared a quorom present when the roll call failed to show such a state of facts.

THE coming summer promises to be a busy one in the way of public improvements. If the contemplated street paving is done labor will be furnished plenty of employment and all branches of business will be benefitted by it.

HON. JOHN B. STOLL, of the South Bend Times, is not in favor of early conventions and long campaigns. He says: "June 14 is the date fixed by the democratic central committee of Allen county for the holding of the county convention. September would have been a vastly preferable date, but it takes time for some people to learn the advantage of a short campaign. All the counties will come to it sooner or later."

IN the Indiana supreme court yesterday the following decision was rendered: A debt due from an heir to his deceased father's estate can be retained out of his distributive share of the surplus proceeds of real estate which has been sold to make assets to pay debts of the estate, as against one who took a mortgage upon the undivided interest of the heir in the land sold pending the settlement of the estate, with full knowledge of the indebtedness of the heir.

SPEAKER REED assumes the position that the republicans threatened to assume at the count of the vote between Hayes and Tilden—the presiding officer shall count. He insists that he shall count members present and not voting. That is to say, the democrats abstain from voting so as make "no quorum." Mr. Reed makes a note of those present thus abstaining, and orders their names entered into the roll as present, thus obtaining a quorum and deciding the question.

THE summary statement of commerce and immigration just issued from the treasury bureau of statistics shows that the number of immigrants landed at the six principal ports during the last calendar year was 426,738, against 518,526 during the year 1888, a decrease of 91,788. The arrivals at the six ports referred to comprise about 99 per cent. of all the immigration into the country, according to the chief of the bureau. It is to be noted, however, that they do not inclnde the arrivals from Mexico and the British North American possessions, which, together with the arrivals from China, are not recorded at all, and have not been since July 1, 1885.

THE Rev. Dr. Lyman Abbott is drawing nearly as large congregations to Plymouth church as Henry Ward Beecher did in his last days. In his last Sunday's sermon Mr. Abbott took rather a pessimistic view of things. "The greed of the present day is a crying evil," he said. "The rich and the poor are being separated by a wider chasm. The danger in America is not so much in democracy as plutocracy. Greed and selfishness are responsible for fraud at the ballot-box, and then there is the abominable scramble for the 100,000 government offices On one page of a newspaper we read of a fashionable ball, where gems flashed and costly satins rustled, and on another page of a starving woman, pressing her dying babe to her breast. The women of to-day care not for domestic duties as did their grandmothers."

COMMON COUNCIL.

An Ordinance Granting the Abbott Street Railway Company the Right of Way on Its Second Reading--Resolutions, Etc.

An ordinance authorizing the use and occupation of certain streets therein named by William T. Abbott, Augustus H. Carler, Charles L. Centlivre and Aug. C. Trentman, of Fort Wayne, Indiana.

Section 1. Be it ordained by the common council of the city of Fort Wayne, that consent, permission and authority are hereby granted, given and vested upon the conditions hereinafter named, unto William T. Abbott and his associates above named, and their successors or assigns, to lay a street railroad track, with all necessary turnouts, sidetracks and switches, for passenger railroad lines, upon and along the following named streets, to-wit:

Commencing at the intersection of the Wayne trace with Walton avenue; thence north on Walton avenue to Lewis street; thence west on Lewis street to Clinton street; thence north on Clinton street to the center of Superior street.

Said track shall be of uniform guage and not to exceed four feet and nine inches in width, and must be laid an equal distance from the center of said streets, and the center of the streets shall be ascertained by measuring from the lines of the lots abutting upon said streets.

Sec. 2. The consent, permission and authority in this ordinance granted and vested in said William T. Abbott and his associates above named, are upon the conditions hereinafter specified in the following sections:

Sec. 3. The said William T. Abbott and his associates above named are to lay said track on said streets between said points, upon a grade to be given by the city civil engineer of said city, and the said William T. Abbott and his associates are to pave with cobble stone at the time said tracks are laid all that portion of said streets as lies between the rails of said track, at their own expense and to the satisfaction of the city civil engineer and the common council of said city, and the same is to be kept in repair and maintained to the satisfaction of said engineer and common council, by and at the expense of said William T. Abbott and his said associates, provided that after the expiration of ten years from the time of first laying said track, the said William T. Abbott and his associates will, if so ordered by said common council, remove at their own expense said cobble stone and pave the same with such material as the common council shall order, at their own expense, and keep and maintain the same likewise; all of which is to be done to the satisfaction of the city civil engineer and the common council; provided, however, that the said William T. Abbott and his said associates shall not be required to build or maintain a more expensive pavement for their portion than is provided for the balance of said streets. If other than cobble stone is required of them, said William T. Abbott and his said associates shall not be required to build or maintain any other portion of said street than specified above except that they shall maintain and keep in repair after the same shall have been built or repaired, said street to a distance of twelve inches from the outside of each rail of said track, to be so kept and maintained in repair by said William T. Abbott and his said associates, at their expense to the satisfaction of said common council.

Sec. 4. The rails constituting said track shall be the modern improved rail, and to be satisfactory to the mayor and the common council of said city, and none of the rails of said track shall be laid above the level of the surface of the street.

Sec. 5. Said William T. Abbott and his said associates shall keep the said track in such a condition, that it shall not at any time be above the surface of said street, so that vehicles can easily and freely at all times cross said track, at all points in any direction, without interference or obstruction; and if the said William T. Abbott and his said associates shall fail or neglect to comply with the provisions of this section, the common council shall cause a notice fixing a time, which shall not be less than five days, within which said William T. Abbott and his said associates shall place said track or part thereof, in the condition required by this ordinance, and if said William T. Abbott and his said associates, shall within the time so fixed by this common council, fail to do so, said William T. Abbott and his said associates shall forfeit and pay to said city $25, for every day of such neglect and failure, after the expiration of said time, as fixed by said common council and notice thereof; and the city attorney shall upon the order of said common council, prosecute such forfeiture to judgment and execution, in any court of competent jurisdiction.

Sec. 6. The common council shall have the power at all times to make such regulations as to the use of cars and the rate of speed, as public health, safety and convenience may require. The cars upon said track shall be moved or operated by animal power only; cars shall run upon said track from 6 o'clock a. m. until 11 o'clock p. m. of each and every day, and not to exceed twenty minutes apart in either direction.

Sec. 7. The cars of said William T. Abbott and his said associates shall be entitled to the track in all cases. Whenever any team or vehicle shall meet or be overtaken by a car, such team or vehicle shall give way to said car, nor shall any person willfully or purposely obstruct or interfere with any of the cars by driving or stopping, or causing to be placed or driven in a slow pace, or stopped any team or vehicle or other obstacle in, upon, along or across or near the track of said line, after being notified by the driver or the ringing of the bell or otherwise; and any person violating this section shall upon conviction, forfeit and pay a fine to said city of not to exceed one hundred dollars.

Sec. 8. It shall be lawful for the city to excavate or permit to be excavated, said street where the same shall be necessary for public purposes, and in case the same is done it shall be the duty of said William T. Abbott and his said associates to protect their own property and rights as best they can, pending such excavation, at their own expense.

Sec. 9. And in laying or repaving such track or any part thereof, it shall be the duty of said William T. Abbott and his said associates, to leave that portion of said streets to be maintained by the city, in as good condition as the same was before the laying or relaying of such track, or parts thereof, by said William T. Abbott and his said associates.

Sec. 10. The said William T. Abbott and his said associates shall forever indemnify and save harmless the said city of Fort Wayne, against and from any and alleged damages, judgments, decrees, costs and expenses of the same, which it may suffer or which may be recovered or obtained against it for or by reason of, or growing out of, or resulting from the passage of this ordinance, or any matter or thing connected therewith, or by the exercise of the said William T. Abbott and his said associates, of the privileges hereby granted, or from any act or acts by the said William T. Abbott and his said associates, their servants or agents under or by virtue of the provisions of this ordinance.

Sec. 11. The said William T. Abbott and his said associates shall enter into a good and sufficient bond with said city in the penal sum of five thousand dollars, for the faithful performance of all the terms and conditions contained in this ordinance and that said track shall be constructed and completed as herein provided, within eighteen months from the passage of this ordinance.

RESTORED HER HEALTH.

For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy-five years.

An officer in one of the accident insurance companies asserts that the records show that every freight brakeman in the United States, stands one chance in three of being killed within a year.

The Pennsylvania Railroad company is making large purchases of land on the New York bay shore, between Jersey City and Bergen Point. Last week $125,000 was expended in buying a long strip on this water front.

E. B. Walls, superintendent of motive power of the Pennsylvania lines, southwestern system, states that the locomotive power of the southwestern lines is to be increased forty-seven engines in the next few months. Twenty-three of these are to be consolidated, eighteen passenger engines, class "O," and five switching engines, class "M." A new engine is also building for Madison hill, and twenty-four passenger coaches of the most approved build have been contracted for for the southwestern lines.

John Allen, of Findlay, Ohio, is suing the Western Union Telegraph company for $5,000 damages for injuries to his wife's health on account of a mistake in a telegraph message. Mr. Allen sent a telegram to his wife at Groveland, N. Y., on March 12 last, to the effect that she should start for Findlay on the 14th and he would meet her at Freemont, Ohio. The telegraph operator in transmitting the message made it read "start to-morrow." This she did, and when she got to Fremont no one was there to meet her. She went on to Findlay, to meet a like disappointment, and was compelled to spend the night in the depot. She was in poor health and the whole affair so worked upon her nervous system that she became violently ill and has not yet recovered.

A railroad official, in speaking of several recent railroad disasters, remarked that the general impression was that a bridge is safer to run trains over than a trestle. Such is not the case. He said that where a trestle is properly constructed every four or five feet it has a solid bearing on the ground, while the bridge is suspended in the air, and often does not have a solid bearing for a distance of 150 or more feet. The trouble, however, he said, with trestles is that they are generally built to run trains over it, with the intention of later putting in probably a stone arch and then filling up the space occupied by the trestle, the arch forming the opening to let the water through; then the work of replacing the trestle with something more substantial is delayed, and sometimes too long.

WILL HE SEE HIS SHADOW?

The Groundhog Will Come Out of His Hole Sunday and Forecast the Weather for Six Weeks.

Next Sunday is groundhog day. The festive little fellow is in his hole now, but he will emerge from it on that day and his actions will determine the condition of the weather for the next six weeks to come.

He stays in his hole all winter, but on the 2nd of February of every year he comes to the entrance and peeps out. If he sees his shadow, so the legend runs, he dodges back into his hole knowing that there will be six weeks more of winter. If, however, he does not see his shadow the little cuss ventures out and plays around with the happy thought that his long sleep is over and spring is at hand.

The ground hog legend and its forecast of the weather is believed by hundreds of thousands in this country. In Germany it is the badger who goes through these gymnastics; in France and Switzerland it is the marmot; in England, the hedgehog; in the fables of Scandinavia, it is the bear, who wakes up in like manner, and, seeing the sun, goes back into his den. He then turns over and goes to sleep again, for he knows that winter is only half over.

The ground hog superstition is firmly believed in by the negroes of the south, who seem to have brought a similar fable with their love of brere rabbit from the shores of Africa.

Now the question arises, how does a small natural history fable like this appear simultaneously in three continents and repeat itself interminably through the ages? It is not because it has a foundation in truth, for one has only to take note of the absolute weather conditions on this and succeeding days to prove it a pure fiction. And yet people go on believing in the fable and repeating old proverbs about it such as "The farmer would rather see a wolf in his barn than the sun on Candlemas Day," or "As the sun shines in the door on the 2d of February, so far the snow will drift on the 2d of May," and so on.

The only foundation for the fable seems to be the general truth that pleasant weather in February is likely to be followed by a change and chilly spring. Such an occurrence rouses the canny Scotchman to profanity, for he says: "Of a' months in the year curse on Februeer," and the Welshman is even more earnest in the matter, for he says: "The Welshman would rather see his wife on her bier than a fair Februeer."

The man who tells the weather by the ground-hog's antics on the 2d day of February belongs to the crowd who foretell snow storms by the spots on a goose-bone and who gueses at mild or severe winters by the skins of the onions or the husks of the corn. With all due deference to the ground hog, wise as he may be, and wise as he may appear to act, we do not hesitate to say that as a weather prophet he is as dumb as an oyster and does not know half as much about it as the almanac makers.

THE United States has the smallest standing army of all the great nations, and yet it spends almost as much per head for military purposes as Prussia or Russia. This is explained, of course, by the fact that we maintain the most liberal pension system in the world.

One Fact

Is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

JOHN MCCLOSKEY, of San Antonio, Texas, has been mourned as dead for nine years. The other night a bearded stranger appeared at the home of Mrs. McCloskey. She became very indignant when he took her in his arms. It was her husband. He had been in the West, and made a great deal of money.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

IT is sometimes said that the branches of very old trees are, properly speaking, roots, and that if planted upside down the trees would flourish. Herr Kny, a German botanist, has recently investigated the matter by planting vines and ivy with both ends in the ground, and subsequently cutting them at the arch. The experiments were fairly successful, though not in every instance, and Kerr Kny intends to continue them with other plants and trees, such as willows, poplars, and roses.

EATON RAPIDS, Mich.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

HENRY MARVIN.

WASHINGTON people are said to be apprehensive that the novel which the widow of Gen. Ricketts is writing will portray some incidents in their lives with rather too much vividness.

Great Improvements.

It is not many years ago since people travelled on horseback or by stages; now fifty miles an hour is not fast enough for them. Formerly people wrote letters that were weeks in reaching their destination; now the telegraph flashes thought around the world. Formerly doctors bled their patients for nearly every complaint; now they use advanced science of the highest order. Prof. Austin Flint, of Bellevue college, says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century." Prof. Henry Mott, Ph. D., F. C. S., says: "By a most careful analysis I have found Duffy's Pure Malt Whiskey free from adulterations or foreign substances, and it deserves to meet with great success." The well known Dr. A. W. Hutchinson, of New York, says: "I highly recommend Duffy's Pure Malt Whiskey and prescribe it extensively in my practice." Rev. B. Mills, of Princeton, Iowa, says: "I have used Duffy's Pure Malt Whiskey with great benefit to my wife, who is a confirmed invalid. I know from experience it is a pure and most valuable medicine. I am also using it in the case of my son, who is threatened with consumption. I am a Presbyterian clergyman and a doctor of divinity, but I am not afraid to recommend Duffy's Malt Whiskey as the purest and most efficient tonic that I know of, and my experience is a large one."

FRUIT HOUSE PRICES FOR 1890.

This year opens favorable for the people, so far as the Sugar Market is concerned. Last season the great sugar trust had their grip on the market and made it ruinous to the purchaser—so much so that Sugars were advanced in 60 days at least 50 per cent. This is now over—the Sugar Trust is broken and Sugars have declined to a point lower than they ever were—the last reduction is 1 cent per lb.

The truth is we sell double the quantity we used to a few years ago. Our motto is selling large quantities at a small profit, for we purchase direct of the Importers and then in selling direct to our customers we save three profits—the speculator, jobber and the wholesale dealer. Hateful Blood Relations.

Hateful kindred are those sprung from the parent stem—malaria. They are chills and fever, bilious remittent fever, dumb ague and ague cake. These foes to bodily peace are all blood relations, as there is no doubt that these endemic complaints are produced by contamination of the blood by the miasmata existent in both air and water in malarious regions. Hostetter's Stomach Bitters expels from the blood the virus with which miasma infects, but it does more than this, it neutralizes the atmospheric and aqueous poison and its germs before they have permanently fructified in the system, and thus effectually protects against it the fierce inroads of this diabolical brotherhood of diseases. Thus it is not only a remedy, but also a preventive, prompt in relieving, lasting in effect, perfectly efficient. Nervousness, biliousness, dyspepsia and kidney trouble also succumb to it.

THE DOCTOR'S PRESCRIPTION.

MRS. WINKLE.—Oh, doctor, I've brought little Johnny to see what you can do for him. He is growing so fast that his clothes won't fit him. Can't you prescribe something for him, doctor?

DR. DOODAD.—Yes, I can. I would suggest a visit to THE C. O. D., 73 to 77 Calhoun street, where you can get him a suit of clothes that will fit him and leave less of his person exposed to the weather. At present he is too well ventilated.

MRS. W.—But I can't afford to buy him a new suit every few months.

DR. D.—Yes, you can if you buy his clothes at THE C. O. D., for they charge less than any other place in town and besides you get better-made clothing.

Twenty-five per cent. discount from the price of any Men's, Boys' and Child's Overcoat in their house during January, is another reason why Johnny should be clad with something else than tatters. The learned doctor knows what he is talking about. So does

CHICAGO IS DOOMED!

A Prophetic Revivalist Predicts Its Destruction by a Huge Lake Wave--San Francisco Will Also be Destroyed.

SAN FRANCISCO, Jan. 31.—An Oakland revivalist named Erickson, is predicting that San Francisco, Oakland, Alamada and Chicago, will all be destroyed eight days from date. The three western cities will have a big earthquake, followed by a tidal wave, which will destroy all the property and people except the elect who flee to the mountains. Chicago will be submerged by a huge wave from Lake Michigan.

The prophet says the Lord gave him a vision of the destroyed cities, and also of the end of the world in 1896. Chicago will not be rebuilt, he says, but towns will be started on the opposite side of the river, one of which will be called "Lake Michigan destroyed." Neither will have more than 25,000 people.

Before the end of the world comes he predicts wars in Europe that will last till the crash takes place. He is an ignorant fanatic, but many deluded Oakland people are already arranging their affairs and buying tents for the hergia to the mountains.

SLY SILCOTT.

The Defaulting Cashier of the House Living at Terrebonne, Quebec. With His Guilty Love.

TERREBONNE, Quebec, Jan. 31.—C. E. Silcott, the cashier of the sergeant-at-arms office, who absconded from Washington on November 30 with $96,000, has been found. He is stopping at the house of Mr. Thiballs, the father of the woman with whom Silcott eloped from Washington. The woman is also domiciled here.

Miss Thiball's parents seem to be still unconscious of their daughter's fall and apparently believe that she is the wife of the man whom she is said to have lured to his ruin. In an interview last night Silcott said:

"The charge of forgery is bosh. When I left Washington for New York I had not the remotest idea of leaving the United States. As proof of this I point to the fact that on the Wednesday before Thanksgiving I drew $36,000, and with $14,000 of this I took up notes of members which had been discounted in bank. As to the other money I am accused of decamping with I assure you I had but very little when I left New York."

Silcott wanted it denied that he was a big winner at the races. On the contrary he lost heavily. He only went to the races to keep up and be a hale fellow with the members who are now running him down. He defies the detectives and says the best legal advice in Canada assures him that he has committed no extraditiable offense. He concluded, "The day will come when I will not appear as black as I am painted."

VOORHEES AND GRAY.

The Two Statesmen Meet at Indianapolis--The Latter Not in the Field for Senatorial Honors.

CHICAGO, Jan. 31.—A Tribune special from Indianapolis says, a conference between Senator Voorhees and ex-Governor Gray was held here last evening, at the residence of the latter. The senator arrived in the city yesterday afternoon, and after stopping for a few minutes at a hotel, proceeded to the residence of ex-Governor Gray. The call was prolonged through nearly two hours. At its conclusion an attempt was made to interview Voorhees, but he would not talk, and soon left the city for Terre Haute.

Ex-Governor Gray was called upon last night and asked if he had agreed to withdraw from the senatorial contest. He said, "It has been all mere supposition that I was in the field as a candidate for the senatorship. I have never said that I was a candidate. The feeling between Senator Voorhees and myself is friendly, and I shall give him my hearty support."

In consideration of this withdrawal of Gray's opposition to the candidacy of Voorhees' re-election it is understood that the senator has pledged the ex-governor his support as a candidate for the nomination of vice president in 1892.

Charged With Lynching.

EVANSVILLE, Tex., Jan. 31.—The eight men charged with lynching J. H. Keyes, near Healdtown, I. T., the 18th of November last, will be held without bail to answer a charge of murder. They are all farmers of good standing.

BLOOMINGTON, Ill., Jan. 31.—Frank Rowell, cousin of Congressman Rowell, of this city, died last night from spinal trouble brought on by the grip. He was a brother of Hon. Clinton Rowell, of St. Louis.

Declared a Draw.

INDIANAPOLIS, Ind., Jan. 21.—A prize fight occurred near here last night between Michael Corkins, of this city, and Jimmy Carroll, of Chicago, for $100 a side and the gate receipts. It was witnessed by about 200 persons. The police interfered, but when the combatants promised to use four ounce gloves they were allowed to proceed. Fourteen rounds were fought and the match was declared a draw.

REED'S RULINGS

Still the Main Topic of Discussion and Keep the National House in an Uproar.

WASHINGTON, Jan. 31.—The house was far more orderly to-day. The democrats introduced filibustering tactics, but they proceeded in an orderly way. The same interested crowd thronged the galleries and the corridors of the capitol.

Significant smiles flitted across the faces of several members when Chaplain Milburn opened the proceedings of the house at noon in a prayer in which he invoked wisdom to guide the members in their deliberations.

The galleries as on the previous two days were crowded. Those who expected a repetition of the scenes of yesterday, during the reading of the journal, were disappointed, for nothing happened more exciting than two demands from Mr. Bland to have read the names of those who voted on the various motions yesterday, and also the names of those present and not voting.

The clerk in reading the names was obliged, for convenience, to obtain the congressional record and Mr. Outhwaite, of Ohio, objected to this on the grounds that as the journal was what the house would be asked to pass upon, it should not be made up from the record. The speaker hoped that Mr. Othwaite would not object, but the latter persisted and Mr. Reed scored a laugh by saying: "The gentleman can have his own way."

The clerk then read the names from the official yea and nay slip. As soon as the clerk finished the reading Mr. McKinley was on his feet with a motion to approve the journal. He demanded the previous question. Mr. Springer was ready with a motion to adjourn and proceeded to speak upon it. The speaker interrupted him with the remark that the gentleman, meaning Mr. Springer, knew that a motion to adjourn was not debateable.

"But there are no rules," was the retort.

"There are rules," was the calm reply of Speaker Reed.

"What are they?" demand Mr. Springer, and, in answer, the speaker stated that according to rules of parliamentary law, a motion to adjourn was not debateable. He then put the motion to adjourn. Division was called for, and Mr. McKinley demanded the yeas and nays. All this was a repetition of the early proceedings of yesterday.

A dozen democrats shouted that a motion to adjourn had been put, the speaker managed to start the motion of Mr. McKinley for the approval of the journal. This seemed to make Mr. Bland furious. He shook both fists at the speaker, calling out that his action was a curse on the house.

Loud applause from the democrats followed the remark. Some people in the galleries hissed. Quiet was restored when the clerk began to call the roll, the republicans having ordered the ayes and nays. When the speaker announced that the yeas were 160, and proceeded to count in the democrats who were present.

Mr. Bynum, of Indiana, arose in his seat and waited until Mr. Reed had finished. Amid jeers from the democrats, the speaker announced the journal approved, and then recognized Mr. Bynum, who had been calling patiently for recognition. Coming to the front of the house, Mr. Bynum delivered what was probably the most bitter personal tirade ever made on the floor of the house.

Mr. Bynum had been recognized on the question of personal privelege, but he branched off into an arraignment on the republican party. He said that the speaker had refused to recognize his motion to adjourn in defiance of parliamentary procedure and in defiance of right and justice. The speaker's rulings he characterized as arbitrary, outrageous, damnable and in keeping with the acts of the republican party.

The speaker called Bynum to order, but he seemed to be emboldened by the interperteion and refused to desist. He told the speaker that he mutilated the records of the house to serve his purpose—to carry out the scheme of a tyrant and that he was backed by a mob, meaning the republican members.

Lampson Ousted.

COLUMBUS, O., Jan. 31.—The hearing in the Marquis-Lampson contest case for the lieutenant governorship was concluded in the Ohio senate last evening, and Lampson (rep.) was ousted by a strict party vote. The republican members filed a number of protests against the manner of proceeding, and the conclusion was attended with stormy scenes. Lampson gave notice that the case would be carried to the supreme court.

LIVING PICTURES.

A Delightful Entertainment Given at the Y. M. C. Hall.

A comfortable crowd attended the entertainment of "Living Pictures," at the City Y. M. C. A. hall last night.

Miss M. E. Tibbals, the art teacher, to whose the conception the novelty can be credited, is deserving of compliment for introducing an entertainment so original and pleasing.

The living pictures were persons appropriately costumed and "prepared" to represent famous paintings from the brushes of the old masters.

Musical numbers, under the direction of Prof. W. F. Heath, were interspersed throughout the entertainment. They consisted of a piano solo, by Miss Jennie Ninde; vocal solo, by Professor Heath; zither solo, by Mr. W. Minckler, and a cornet solo, by Dr. Todd.

The living pictures appeared behind a large frame, constructed for the purpose, and the remarks upon each "painting" were made by Judge R. S. Taylor in the happy strain that is peculiarly his own. The living pictures were represented as follows:

"Nun and Novice," by Miss Belle Clark and Miss Anna Bond.

"We Won't Stand," Lura Fee and Charlie Alderman.

French Peasant and Maid—Miss Clara Webb.

Neapolitan Boy—Miss Emma Crawford.

Penelope Bookby—Miss Myrtle Long.

High Priest, (ommitted) would have been represented by Mr. Henry.

Typical New England Judge—M. V. B. Spencer.

The Street Arabs—Masters Dan Hayden, Harry Alderman and Ralph Bond.

From Long Ago—Misses Sadie Mahin and Lettie Pepple.

The Old Story—Miss May Seaman and Mr. Walter Carver.

The Turk—Mr. Pyke.

A Courtier—Mr. Will Mahin.

The Roman—Mr. Walter Carver.

Portrait of a Lady—Mrs. Prof. Heath.

Ideal Head—Miss Alice Knause.

King and Councellor—Mr. C. W. Pixley and Prof. W. F. Heath.

The "Song at Twilight" was to be a fitting finale, but two old characters, which were necessary, could not be procured.

DAVIDSON'S DEED.

Thomas Davidson, Charged With Murder, Releases All Interest in His Dead Uncle's Estate.

Thomas Davidson, who is now in the county jail on the charge of murdering his uncle, Thomas Davidson, near Arcola last fall, was, it will be remembered, at one time awarded eighty acres of land by his uncle. After this, trouble of some kind arose between the two and the uncle commenced proceedings to get the property back into his own name, but before the case came to trial old Davidson met his death.

Yesterday young Davidson deeded back to the estate not only the eighty acres which was in dispute, but also his entire interest in the old man's property. The senior Davidson had besides about 160 acres in which the nephew would have had an interest, and this interest he released. The deed was made in consideration of $500.

The charge of murder which now stands against the prisoner Davidson will be investigated at the coming session of the grand jury.

THE PERU HOSPITAL.

General Manager Hayes Favors Its Removal to This City.

A gentleman of this city who returned a few days ago from St. Louis stated to a SENTINEL reporter that he had been in consultation with General Manager Hays of the Wabash.

Mr. Hays said among other things that he was in favor of removing the Wabash railroad hospital from Peru to Fort Wayne; but he furthermore added that he did not relish the animus that is being belched forth at the Wabash over their right to property.

So long as attempts are made to stab the Wabash, much had not ought to be expected of the road. Under the present management the road is doing better than it ever did.

A Cold Wave.

WASHINGTON, Jan. 31.—For Indiana: Light local showers, followed by fair, colder weather; northwesterly winds, with a cold wave.

The storm which was central north of Dakota yesterday morning, is now central on Lake Huron. The storm is attended by light rain in the lake and cold wave in the northwest.

The services at the Christian chapel last night were interesting. Subject to night: "Conversion of Lydia."

HIS LAST RUN.

Nickel Plate Engineer Chas. Gorman Struck Down With Heart Disease in His Cab and Dies Soon Afterward.

Engineer Charles Gorman, of the Nickel Plate railroad, died very suddenly at Hammond, a small station west of this city, at 8:40 o'clock this morning.

He was standing in the cab of his engine, engaged in the performance of his duties, when he was stricken with heart disease and fell to the floor. His fellow trainmen at once came to his assistance and he was removed to the caboose of the freight train which his engine was pulling. Here he died a few moments afterward.

Mr. Gorman was a young man and has been boarding at No. 8 Mechanic street, Nebraska, in this city. He was unmarried and had a large circle of friends in this city, to whom his death will be a surprise, and it will be received with sadness, for he was a general favorite.

His remains were brought to this city this afternoon and they will be taken to Southern Ohio, near Cincinnati, his former home, for burial. Engineers Micheal McCarthy and Frank Murphy will accompany them. Mr. Gorman was a member of the Brotherhood of Locomotive Engineers and the funeral arrangements will be under the charge of that organization.

LATER.

Mr. Gorman left here yesterday at noon. He had lately recovered from a two weeks' illness, and just as he was to take his train for the west he remarked to Foreman P. J. Fallon that he was not feeling well, but he felt as if he ought to go on duty.

He was returning from Chicago when he was stricken down at Hammond. His remains will be taken to Blanchard, Ohio, where his mother resides, for burial. His brother, John, is in the superintendent of motive power's office at Cleveland, and will accompany the remains to Blanchard.

The deceased was thirty-six years old and was one of the best engineers on the Nickel Plate.

THE FIRE RECORD.

The Business Portion of Covington, Neb., Wiped Out--Other Fires.

COVINGTON, Neb., Jan. 31.—Eight saloons, three wholesale liquor houses and three restaurants, composing the principal business portion of the town, were burned early yesterday morning. Loss, $50,000; insurance $20,000. Nearly all the liquor was destroyed, and in consequence Sioux City will be very dry for a day or two.

DAVENPORT, Ia., Jan. 31.—Twenty thousand bushels of barley and malt were scorched or soaked by the burning of the malt house of the Bosch grain company here yesterday. The fire originated in the kilns. There is an insurance of $20,000 on the contents of the building, but it will not cover the loss.

FAVORING BRICK PAVEMENT.

A Petition Circulated Among East Wayne Street Property Owners.

Mr. E. B. Kunkle is to-day circulating a petition among the property owners of East Wayne street for a fire brick pavement on that thoroughfare.

At 2 o'clock Mr. Kunkle informed a SENTINEL reporter that he had the signatures of a large number and that a brick pavement is assured. The property owners will have a meeting to-night.

CORONER'S VERDICT.

In the Columbus Natural Gas Disaster--Carlessness Charged.

COLUMBUS, Ohio, Jan. 31.—Coroner Egan this morning rendered his verdict in the natural gas disaster of last week, by which five persons lost their lives and forty or more were injured. He finds that the explosion was directly due to the gross carelessness of Contractor J. C. Gibney, who laid the pipes, in entirely failing to calk one of the joints.

Funeral Notice.

A BANNER PRESENTATION.

Summit City Lodge, A. O. U. W., Celebrate Their First Anniversary.

Summit City lodge No. 36, A. O. U. W., celebrated their first anniversary last evening, at the hall, 106 Calhoun street.

A most entertaining program was rendered, consisting of a zither solo by Prof. Minckler, a solo by Miss Bates, a recitation by Miss Fessenden and address by Rev. S. A. Northrop.

These exercises were preceded, however, by a statement from Mr. N. Conover, reciting the history of the order and alluding to its present healthy and flourishing condition. During the exercises Past Master Workman Dr. McCormick occupied the chair.

The surprise of the evening rested upon the presentation of a beautiful banner to the lodge, the donors being the ladies who are interested in the society. Mrs. George R. Hench made the presentation speech, and the gift was accepted by the society through Rev. Northrop, who fitly responded, by request, in the absence of Dr. A. P. Buchman.

A supper was served and a sociable time followed. Master Workman George R. Hench was present, and helped in looking to the welfare of those present, including reporters.

The lodge can congratulate itself for having celebrated the first anniversary in a very successful manner.

MRS. WILLIAM JACOBS.

A Pioneer Resident and a Noble Woman Passes Away.

This morning at 8 o'clock, at the residence, 171 East Wayne street, occurred the death of Mrs. Jacobs, widow of the late Wm. Jacobs, and mother of John Jacobs, the well known ex-shoe merchant. The deceased was born at Wooster, Ohio, and came to Fort Wayne with her husband about 1848, residing here ever since. Her husband established the "Jacobs Shoe Store" at the corner of Calhoun and Columbia street, when a small frame building stood on the present site of the Keystone block. Three children survive her as follows: John H., Mrs. Howenstine, and Miss Emma Jacobs.

Mrs. Jacobs was a member of the First Presbyterian church.

WORLD CHAMPIONSHIP.

The Coming Shooting Contest Between Erb and Beck.

The contest will be for the championship of the world, in live bird shooting. Fifty live birds will be shot at.

The honor at present belongs to Mr. Erb, who has the prize silver urn, which was presented by the American Field, at a cost of $600. Erb won the championship from C. W. Budd, of Des Moines, Iowa.

The event is attracting a great deal of notice in this city, and a large number from here will attend, among whom will be W. W. Watson, W. R. Durfee, F. I. Brown and R. C. Ellenwood.

CHIEF ARTHUR, of the Brotherhood of Locomotive Engineers, is a short, compactly built man, about 50 years of age, with gray hair and short-cropped beard. He dresses fashionably and in excellent taste, and looks more like a banker than the head of nearly 30,000 engineers.

HIS elevation to the Senate has made no change in the quiet ways of Judge Moody, of Deadwood, S. D. He is a pleasant looking, quiet old gentleman, wearing a silk hat, and gray hair and whiskers, and he still possesses the amiability of manner to which his success in life is greatly due.

FRIDAY, JAN. 31, 1890.

FOUR weeks from to-morrow is Washington's birthday.

THE birthday of Abraham Lincoln occurs February 12th.

TWO BANKS went to the wall in New York city yesterday.

THE first month of the new year ends with the close of this day.

THE Gresham men have captured the Indiana republican committee.

SUNDAY will be ground hog day. Will the little fellow see his shadow?

CHAIRMAN MICHENER was re-elected to that position last evening by the state republican central committee.

THE best method of paving the streets of the city is a question which is receiving a great deal of attention at present.

OUR merchants have lost thousands of dollars worth of trade this winter on account of the bad condition of the country roads.

EX-POSTMASTER GENERAL DON M. DICKINSON predicts that the democrats will sweep the west at the election next fall on the tariff issue.

THE first cash Millionaire John D. Rockefeller ever had was a quarter, which he is said to have earned working for a farmer to get money to go to the circus. He was then a poor boy, living near Owego, N. Y.

GENERAL MASTER WORKMAN POWDERLY denies that he is seeking office of any kind, and thinks that the report that he was to run for governor of Pennsylvania on the democratic ticket was started by some wag.

SPEAKER REED'S ruling created a rumpus in the house and the congressmen had a high old time. Reed ignored precedents and declared a quorom present when the roll call failed to show such a state of facts.

THE coming summer promises to b a busy one in the way of public improvements. If the contemplated street paving is done labor will be furnished plenty of employment and all branches of business will be benefitted by it.

HON. JOHN B. STOLL, of the South Bend Times, is not in favor of early conventions and long campaigns. He says: "June 14 is the date fixed by the democratic central committee of Allen county for the holding of the county convention. September would have been a vastly preferable date, but it takes time for some people to learn the advantage of a short campaign. All the counties will come to it sooner or later."

IN the Indiana supreme court yesterday the following decision was rendered: A debt due from an heir to his deceased father's estate can be retained out of his distributive share of the surplus proceeds of real estate which has been sold to make assets to pay debts of the estate, as against one who took a morigage upon the undivided interest of the heir in the land sold pending the settlement of the estate, with full knowledge of the indebtedness of the heir.

SPEAKER REED assumes the position that the republicans threatened to assume at the count of the vote between Hayes and Tilden—the presiding officer shall count. He insists that he shall count members present and not voting. That is to say, the democrats abstain from voting so as make "no quorum." MR. Reed makes a note of those present thus abstaining, and orders their names entered into the roll as present, thus obtaining a quorum and deciding the question.

THE summary statement of commerce and immigration just issued from the treasury bureau of statistics shows that the number of immigrants landed at the six principal ports during the last calendar year was 426,738, against 518,526 during the year 1888, a decrease of 91,788. The arrivals at the six ports referred to comprise about 99 per cent. of all the immigration into the country, according to the chief of the bureau. It is to be noted, however, that they do not include the arrivals from Mexico and the British North American possessions, which, together with the arrivals from China, are not recorded at all, and have not been since July 1, 1885.

THE Rev. Dr. Lyman Abbott is drawing nearly as large congregations to Plymouth church as Henry Ward Beecher did in his last days. In his last Sunday's sermon Mr. Abbott took rather a pessimistic view of things. "The greed of the present day is a crying evil," he said. "The rich and the poor are being separated by a wider chasm. The danger in America is not so much in democracy as plutocracy. Greed and selfishness are responsible for fraud at the ballot-box, and then there is the abominable scramble for the 100,000 government offices On one page of a newspaper we read of a fashionable ball, where gems flashed and costly satins rustled, and on another page of a starving woman, pressing her dying babe to her breast. The women of to-day care not for domestic duties as did their grandmothers."

COMMON COUNCIL.

An Ordinance Granting the Abbott Street Railway Company the Right of Way on Its Second Reading--Resolutions, Etc.

An ordinance authorizing the use and occupation of certain streets therein named by William T. Abbott, Augustus H. Carier, Charles L. Centliver and Aug. C. Trentman, of Fort Wayne, Indiana.

Section 1. Be it ordained by the common council of the city of Fort Wayne, that consent, permission and authority are hereby granted, given and vested upon the conditions hereinafter named, unto William T. Abbott and his associates above named, and their successors or assigns, to lay a street railroad track, with all necessary turnouts, sidetracks and switches, for passenger railroad lines, upon and along the following named streets, to-wit:

Commencing at the intersection of the Wayne trace with Walton avenue; thence north on Walton avenue to Lewis street; thence west on Lewis street to Clinton street; thence north on Clinton street to the center of Superior street.

Said track shall be of uniform guage and not to exceed four feet and nine inches in width, and must be laid an equal distance from the center of said street, and the center of the streets shall be ascertained by measuring from the lines of the lots abutting upon said streets.

Sec. 2. The consent, permission and authority in this ordinance granted and vested in said William T. Abbott and his associates above named, are upon the conditions hereinafter specified in the following sections:

Sec. 3. The said William T. Abbott and his associates above named are to lay said track on said streets between said points, upon a grade to be given by the city civil engineer of said city, and the said William T. Abbott and his associates are to pave with cobble stone at the time said tracks are laid all that portion of said streets as lies between the rails of said track, at their own expense and to the satisfaction of the city civil engineer and the common council of said city, and the same is to be kept in repair and maintained to the satisfaction of said engineer and common council, by and at the expense of said William T. Abbott and his said associates, provided that after the expiration of ten years from the time of first laying said track, the said William T. Abbott and his associates will, if so ordered by said common council, remove at their own expense said cobble stone and pave the same with such material as the common council shall order, at their own expense, and keep and maintain the same likewise; all of which is to be done to the satisfaction of the city civil engineer and the common council; provided, however, that the said William T. Abbott and his said associates shall not be required to build or maintain any other portion of said street than specified above except that they shall maintain and keep in repair after the same shall have been built or repaired, said street to a distance of twelve inches from the outside of each rail of said track, to be so kept and maintained in repair by said William T. Abbott and his said associates, at their expense to the satisfaction of said common council.

Sec. 4. The rails constituting said track shall be the modern improved rail, and to be satisfactory to the mayor and the common council of said city, and none of the rails of said track shall be laid above the level of the surface of the street.

Sec. 5. Said William T. Abbott and his said associates shall keep the said track in such a condition, that it shall not at any time be above the surface of said street, so that vehicles can easily and freely at all times cross said track, at all points in any direction, without interference or obstruction; and if the said William T. Abbott and his said associates shall fail or neglect to comply with the provisions of this section, the common council shall cause a notice fixing a time, which shall not be less than five days, within which said William T. Abbott and his said associates shall place said track or part thereof, in the condition required by this ordinance, and if said William T. Abbott and his said associates, shall within the time so fixed by this common council, fail to do so, said William T. Abbott and his said associates shall forfeit and pay to said city $25, for every day of such neglect and failure, after the expiration of said time, as fixed by said common council and notice thereof; and the city attorney shall upon the order of said common council, prosecute such forfeiture to judgment and execution, in any court of competent jurisdiction.

Sec. 6. The common council shall have the power at all times to make such regulations as to the use of cars and the rate of speed, as public health, safety and convenience may require. The cars upon said track shall be moved or operated by animal power only; cars shall run upon said track from 6 o'clock a. m. until 11 o'clock p. m. of each and every day, and not to exceed twenty minutes apart in either direction.

Sec. 7. The cars of said William T. Abbott and his said associates shall be entitled to the track in all cases. Whenever any team or vehicle shall meet or be overtaken by a car, such team or vehicle shall give way to said car, nor shall any person willfully or purposely obstruct or interfere with any of the cars by driving or stopping, or causing to be placed or driven in a slow pace, or stopped any team or vehicle or other obstacle in, upon, along or across or near the track of said line, after being notified by the driver or the ringing of the bell or otherwise, and any person violating this section shall upon conviction, forfeit and pay a fine to said city of not to exceed one hundred dollars.

Sec. 8. It shall be lawful for the city to excavate or permit to be excavated, said street where the same shall be necessary for public purposes, and in case the same is done it shall be the duty of said William T. Abbott and his said associates to protect their own property and rights as best they can, pending such excavation, at their own expense.

Sec. 9. And in laying or repaving such track or any part thereof, it shall be the duty of said William T. Abbott and his said associates, to leave that portion of said streets to be maintained by the city, in as good condition as the same was before the laying or replacing of such track, or parts thereof, by said William T. Abbott and his said associates.

Sec. 10. The said William T. Abbott and his said associates shall forever indemnify and save harmless the said city of Fort Wayne, against and from any and alleged damages, judgments, decrees, costs and expenses of the same, which it may suffer or which may be recovered or obtained against it for or by reason of, or growing out of, or resulting from the passage of this ordinance, or any matter or thing connected therewith, or by the exercise of the said William T. Abbott and his said associates, of the privileges hereby granted, or from any act or acts by the said William T. Abbott and his said associates, their servants or agents under or by virtue of the provisions of this ordinance.

Sec. 11. The said William T. Abbott and his said associates shall enter into a good and sufficient bond with said city in the penal sum of five thousand dollars, for the faithful performance of all the terms and conditions contained in this ordinance and that said track shall be constructed and completed as herein provided, within eighteen months from the passage of this ordinance.

The above ordinance was read a first and second time and referred to the committee on streets and city attorney.

John Allen, of Findlay, Ohio, is suing the Western Union Telegraph company for $5,000 damages for injuries to his wife's health on account of a mistake in a telegraph message. Mr. Allen sent a telegram to his wife at Groveland, N. Y., on March 12 last, to the effect that she should start for Findlay on the 14th and he would meet her at Freemont, Ohio. The telegraph operator in transmitting the message made it read "start to-morrow." This she did, and when she got to Fremont no one was there to meet her. She went on to Findlay, to meet a like disappointment, and was compelled to spend the night in the depot. She was in poor health and the whole affair so worked upon her nervous system that she became violently ill and has not yet recovered.

A railroad official, in speaking of several recent railroad disasters, remarked that the general impression was that a bridge is safer to run trains over than a trestle. Such is not the case. He said that where a trestle is properly constructed every four or five feet it has a solid bearing on the ground, while the bridge is suspended in the air, and often does not have a solid bearing for a distance of 150 or more feet. The trouble, however, he said, with trestles is that they are generally built to run trains over it, with the intention of later putting in probably a stone arch and then filling up the space occupied by the trestle, the arch forming the opening to let the water through; then the work of replacing the trestle with something more substantial is delayed, and sometimes too long.

WILL HE SEE HIS SHADOW?

The Groundhog Will Come Out of His Hole Sunday and Forecast the Weather for Six Weeks.

Next Sunday is groundhog day. The festive little fellow is in his hole now, but he will emerge from it on that day and his actions will determine the condition of the weather for the next six weeks to come.

He stays in his hole all winter, but on the 2nd of February of every year he comes to the entrance and peeps out. If he sees his shadow, so the legend runs, he dodges back into his hole knowing that there will be six weeks more of winter. If, however, he does not see his shadow the little cuss ventures out and plays around with the happy thought that his long sleep is over and spring is at hand.

The ground hog legend and its forecast of the weather is believed by hundreds of thousands in this country. In Germany it is the badger who goes through these gymnastics; in France and Switzerland it is the marmot; in England, the hedgehog; in the fables of Scandinavia, it is the bear, who wakes up in like manner, and, seeing the sun, goes back into his den. He then turns over and goes to sleep again, for he knows that winter is only half over.

The ground hog superstition is firmly believed in by the negroes of the south, who seem to have brought a similar fable with their love of brere rabbit from the shores of Africa.

Now the question arises, how does a small natural history fable like this appear simultaneously in three continents and repeat itself interminably through the ages? It is not because it has a foundation in truth, for one has only to take note of the absolute weather conditions on this and succeeding days to prove it a pure fiction. And yet people go on believing in the fable and repeating old proverbs about it such as "The farmer would rather see a wolf in his barn than the sun on Candlemas Day," or "As the sun shines in the door on the 2d of February, so far the snow will drift on the 2d of May," and so on.

The only foundation for the fable seems to be the general truth that pleasant weather in February is likely to be followed by a change and chilly spring. Such an occurrence rouses the canny Scotchman to profanity, for he says: "Of a' months in the year curse on Februeer," and the Welshman is even more earnest in the matter, for he says: "The Welshman would rather see his wife on her bier than a fair Februeer."

The man who tells the weather by the ground-hog's antics on the 2d day of February belongs to the crowd who foretell snow storms by the spots on a goose-bone and who guess at mild or severe winters by the skins of the onions or the husks of the corn. With all due deference to the ground hog, wise as he may be, and wise as he may appear to act, we do not hesitate to say that as a weather prophet he is as dumb as an oyster and does not know half as much about it as the almanac makers.

THE United States has the smallest standing army of all the great nations, and yet it spends almost as much per head for military purposes as Prussia or Russia. This is explained, of course, by the fact that we maintain the most liberal pension system in the world.

It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

IT is sometimes said that the branches of very old trees are, properly speaking, roots, and that if planted upside down the trees would flourish. Herr Kny, a German botanist, has recently investigated the matter by planting vines and ivy with both ends in the ground, and subsequently cutting them at the arch. The experiments were fairly successful, though not in every instance, and Kerr Kny intends to continue them with other plants and trees, such as willows, poplars, and roses.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

Great Improvements.

It is not many years ago since people travelled on horseback or by stages; now fifty miles an hour is not fast enough for them. Formerly people wrote letters that were weeks in reaching their destination; now the telegraph flashes thought around the world. Formerly doctors bled their patients for nearly every complaint; now they use advanced science of the highest order. Prof. Austin Flint, of Bellevue college, says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century." Prof. Henry Mott, Ph. D., F. C. S., says: "By a most careful analysis I have found Duffy's Pure Malt Whiskey free from adulterations or foreign substances, and it deserves to meet with great success." The well known Dr. A. W. Hutchinson, of New York, says: "I highly recommend Duffy's Pure Malt Whiskey and prescribe it extensively in my practice." Rev. B. Mills, of Princeton, Iowa, says: "I have used Duffy's Pure Malt Whiskey with great benefit to my wife, who is a confirmed invalid. I know from experience it is a pure and most valuable medicine. I am also using it in the case of my son, who is threatened with consumption. I am a Presbyterian clergyman and a doctor of divinity, but I am not afraid to recommend Duffy's Malt Whiskey as the purest and most efficient tonic that I know of, and my experience is a large one."

Hateful Blood Relations.

Hateful kindred are those sprung from the parent stem—malaria. They are chills and fever, bilious remittent fever, dumb ague and ague cake. These foes to bodily peace are all blood relations, as there is no doubt that these endemic complaints are produced by contamination of the blood by the miasmata existent in both air and water in malarious regions. Hostetter's Stomach Bitters expels from the blood the virus with which miasma infects, but it does more than this, it neutralizes the atmospheric and aqueous poison and its germs before they have permanently fructified in the system, and thus effectually protects against it the fierce inroads of this diabolical brotherhood of diseases. Thus it is not only a remedy, but also a preventive, prompt in relieving, lasting in effect, perfectly efficient. Nervousness, biliousness, dyspepsia and kidney trouble also succumb to it.

THE DOCTOR'S PRESCRIPTION.

MRS. WINKLE.—Oh, doctor, I've brought little Johnny to see what you can do for him. He is growing so fast that his clothes won't fit him. Can't you prescribe something for him, doctor?

Dr. DOODAD.—Yes, I can. I would suggest a visit to THE C. O. D., 73 to 77 Calhoun street, where you can get him a suit of clothes that will fit him and leave less of his person exposed to the weather. At present he is too well ventilated.

MRS. W.—But I can't afford to buy him a new suit every few months.

Dr. D.—Yes, you can if you buy his clothes at THE C. O. D., for they charge less than any other place in town and besides you get better-made clothing.

Twenty-five per cent. discount from the price of any Men's, Boys' and Child's Overcoat in their house during January, is another reason why Johnny should be clad with something else than tatters. The learned doctor knows what he is talking about. So does

CHICAGO IS DOOMED!

A Prophetic Revivalist Predicts Its Destruction by a Huge Lake Wave—San Francisco Will Also be Destroyed.

SAN FRANCISCO, Jan. 31.—An Oakland revivalist named Erickson, is predicting that San Francisco, Oakland, Alameda and Chicago, will all be destroyed eight days from date. The three western cities will have a big earthquake, followed by a tidal wave, which will destroy all the property and people except the elect who flee to the mountains. Chicago will be submerged by a huge wave from Lake Michigan.

The prophet says the Lord gave him a vision of the destroyed cities, and also of the end of the world in 1896. Chicago will not be rebuilt, he says, but towns will be started on the opposite side of the river, one of which will be called "Lake Michigan destroyed." Neither will have more than 25,000 people.

Before the end of the world comes he predicts wars in Europe that will last till the ermak takes place. He is an ignorant fanatic, but many deluded Oakland people are already arranging their affairs and buying tents for the hegira to the mountains.

SLY SILCOTT.

The Defaulting Cashier of the House Living at Terrebonne, Quebec. With His Guilty Love.

TERREBONNE, Quebec, Jan. 31.—C. E. Silcott, the cashier of the sergeant-at-arms office, who absconded from Washington on November 30 with $96,000, has been found. He is stopping at the house of Mr. Thibault, the father of the woman with whom Silcott eloped from Washington. The woman is also domiciled here.

Miss Thibault's parents seem to be still unconscious of their daughter's fall and apparently believe that she is the wife of the man whom she is said to have lured to his ruin. In an interview last night Silcott said:

"The charge of forgery is bosh. When I left Washington for New York I had not the remotest idea of leaving the United States. As proof of this I point to the fact that on the Wednesday before Thanksgiving I drew $36,000, and with $44,000 of this I took up notes of members which had been discounted in bank. As to the other money I am accused of decamping with I assure you I had but very little when I left New York."

Silcott wanted it denied that he was a big winner at the races. On the contrary he lost heavily. He only went to the races to keep up and be a hale fellow with the members who are now running him down. He defies the detectives and says the best legal advice in Canada assures him that he has committed no extraditiable offense. He concluded, "The day will come when I will not appear as black as I am painted."

VOORHEES AND GRAY.

The Two Statesmen Meet at Indianapolis—The Latter Not in the Field for Senatorial Honors.

CHICAGO, Jan. 31.—A Tribune special from Indianapolis says, a conference between Senator Voorhees and ex-Governor Gray was held here last evening, at the residence of the latter. The senator arrived in the city yesterday afternoon, and after stopping for a few minutes at a hotel, proceeded to the residence of ex-Governor Gray. The call was prolonged through nearly two hours. At its conclusion an attempt was made to interview Voorhees, but he would not talk, and soon left the city for Terre Haute.

Ex-Governor Gray was called upon last night and asked if he had agreed to withdraw from the senatorial contest. He said, "It has been all mere supposition that I was in the field as a candidate for the senatorship. I have never said that I was a candidate. The feeling between Senator Voorhees and myself is friendly, and I shall give him my hearty support."

In consideration of this withdrawal of Gray's opposition to the candidacy of Voorhees' re-election it is understood that the senator has pledged the ex-governor his support as a candidate for the nomination of vice president in 1892.

INDIANAPOLIS, Ind., Jan. 21.—A prize fight occurred near here last night between Michael Corkine, of this city, and Jimmy Carroll, of Chicago, for $100 a side and the gate receipts. It was witnessed by about 200 persons. The police interfered, but when the combatants promised to use four ounce gloves they were allowed to proceed. Fourteen rounds were fought and the match was declared a draw.

REED'S RULINGS

Still the Main Topic of Discussion and Keep the National House in an Uproar.

WASHINGTON, Jan. 31.—The house was far more orderly to-day. The democrats introduced filibustering tactics, but they proceeded in an orderly way. The same interested crowd thronged the galleries and the corridors of the capitol.

Significant smiles flitted across the faces of several members when Chaplain Milburn opened the proceedings of the house at noon in a prayer in which he invoked wisdom to guide the members in their deliberations.

The galleries as on the previous two days were crowded. Those who expected a repetition of the scenes of yesterday, during the reading of the journal, were disappointed, for nothing happened more exciting than two demands from Mr. Bland to have read the names of those who voted on the various motions yesterday, and also the names of those present and not voting.

The clerk in reading the names was obliged, for convenience, to obtain the congressional record and Mr. Outhwaite, of Ohio, objected to this on the grounds that as the journal was what the house would be asked to pass upon, it should not be made up from the record. The speaker hoped that Mr. Outhwaite would not object, but the latter persisted and Mr. Reed scored a laugh by saying: "The gentleman can have his own way."

The clerk then read the names from the official yea and nay slip. As soon as the clerk finished the reading Mr. McKinley was on his feet with a motion to approve the journal. He demanded the previous question. Mr. Springer was ready with a motion to adjourn and proceeded to speak upon it. The speaker interrupted him with the remark that the gentleman, meaning Mr. Springer, knew that a motion to adjourn was not debatable.

"But there are no rules," was the retort.

"There are rules," was the calm reply of Speaker Reed.

"What are they?" demand Mr. Springer, and, in answer, the speaker stated that according to rules of parliamentary law, a motion to adjourn was not debatable. He then put the motion to adjourn. Division was called for, and Mr. McKinley demanded the yeas and nays. All this was a repetition of the early proceedings of yesterday.

A dozen democrats shouted that a motion to adjourn had been put, the speaker managed to start the motion of Mr. McKinley for the approval of the journal. This seemed to make Mr. Bland furious. He shook both fists at the speaker, calling out that his action was a curse on the house.

Loud applause from the democrats followed the remark. Some people in the galleries hissed. Quiet was restored when the clerk began to call the roll, the republicans having ordered the ayes and nays. When the speaker announced that the yeas were 160, and proceeded to count in the democrats who were present.

Mr. Bynum, of Indiana, arose in his seat and waited until Mr. Reed had finished. Amid jeers from the democrats, the speaker announced the journal approved, and then recognized Mr. Bynum, who had been calling patiently for recognition. Coming to the front of the house, Mr. Bynum delivered what was probably the most bitter personal tirade ever made on the floor of the house.

Mr. Bynum had been recognized on the question of personal privilege, but he branched off into an arraignment on the republican party. He said that the speaker had refused to recognize his motion to adjourn in defiance of parliamentary procedure and in defiance of right and justice. The speaker's rulings he characterized as arbitrary, outrageous, damnable and in keeping with the acts of the republican party.

The speaker called Bynum to order, but he seemed to be emboldened by the interpretation and refused to desist. He told the speaker that he mutilated the records of the house to serve his purpose to carry out the scheme of a tyrant and that he was backed by a mob, meaning the republican members.

Lampson Ousted.

COLUMBUS, O., Jan. 31.—The hearing in the Marquis-Lampson contest case for the lieutenant governorship was concluded in the Ohio senate last evening, and Lampson (rep.) was ousted by a strict party vote. The republican members filed a number of protests against the manner of proceeding, and the conclusion was attended with stormy scenes. Lampson gave notice that the case would be carried to the supreme court.

LIVING PICTURES.

A Delightful Entertainment Given at the Y. M. C. A. Hall.

A comfortable crowd attended the entertainment of "Living Pictures," at the City Y. M. C. A. hall last night.

Miss M. E. Tibbals, the art teacher, to whose the conception the novelty can be credited, is deserving of compliment for introducing an entertainment so original and pleasing.

The living pictures were persons appropriately costumed and "prepared" to represent famous paintings from the brushes of the old masters.

Musical numbers, under the direction of Prof. W. F. Heath, were interspersed throughout the entertainment. They consisted of a piano solo, by Miss Jennie Nindo; vocal solo, by Professor Heath; zither solo, by Mr. W. Mueller, and a cornet solo, by Dr. Todd.

The living pictures appeared behind a large frame, constructed for the purpose, and the remarks upon each "painting" were made by Judge R. S. Taylor in the happy strain that is peculiarly his own. The living pictures were represented as follows:

"Nun and Novice," by Miss Belle Clark and Miss Anna Bond.

"We Won't Stand," Laura Fox and Charlie Alderman.

French Peasant and Maid—Miss Clara Webb.

Neapolitan Boy—Miss Emma Crawford.

Penelope Bookby—Miss Myrtle Long.

High Priest, (committed) would have been represented by Mr. Henry.

Typical New England Judge—M. V. B. Spencer.

The Street Arabs—Masters Dan Hayden, Harry Alderman and Ralph Bond.

From Long Ago—Misses Sadie Mahin and Lettie Pepple.

The Old Story—Miss May Seaman and Mr. Walter Carver.

The Turk—Mr. Pyke.

A Courtier—Mr. Will Mahin.

The Roman—Mr. Walter Carver.

Portrait of a Lady—Mrs. Prof. Heath.

Ideal Head—Miss Alice Knause.

King and Counsellor—Mr. G. W. Pixley and Prof. W. F. Heath.

The "Song at Twilight" was to be a fitting finale, but two old characters, which were necessary, could not be procured.

DAVIDSON'S DEED.

Thomas Davidson, Charged With Murder, Releases All Interest in His Dead Uncle's Estate.

Thomas Davidson, who is now in the county jail on the charge of murdering his uncle, Thomas Davidson, near Arcola last fall, was, it will be remembered, at one time awarded eighty acres of land by his uncle. After this, trouble of some kind arose between the two and the uncle commenced proceedings to get the property back into his own name, but before the case came to trial old Davidson met his death.

Yesterday young Davidson deeded back to the estate not only the eighty acres which was in dispute, but also his entire interest in the old man's property. The senior Davidson had besides about 160 acres in which the nephew would have had an interest, and this interest he released. The deed was made in consideration of $500.

The charge of murder which now stands against the prisoner Davidson will be investigated at the coming session of the grand jury.

THE PERU HOSPITAL.

General Manager Hayes Favors Its Removal to This City.

A gentleman of this city who returned a few days ago from St. Louis stated to a SENTINEL reporter that he had been in consultation with General Manager Hays of the Wabash.

Mr. Hays said among other things that he was in favor of removing the Wabash railroad hospital from Peru to Fort Wayne; but he furthermore added that he did not relish the animus that is being belched forth at the Wabash over their right to property.

So long as attempts are made to stab the Wabash, much had not ought to be expected of the road. Under the present management the road is doing better than it ever did.

A Cold Wave.

WASHINGTON, Jan. 31.—For Indiana: Light local showers, followed by fair, colder weather; northwesterly winds, with a cold wave.

The storm which was central north of Dakota yesterday morning is now central on Lake Huron. The storm is attended by light rain in the lake and cold wave in the northwest.

The services at the Christian chapel last night were interesting. Subject to night: "Conversion of Lydia."

HIS LAST RUN.

Nickel Plate Engineer Chas. Gorman Struck Down With Heart Disease in His Cab and Dies Soon Afterward.

Engineer Charles Gorman, of the Nickel Plate railroad, died very suddenly at Hammond, a small station west of this city, at 8:40 o'clock this morning.

He was standing in the cab of his engine, engaged in the performance of his duties, when he was stricken with heart disease and fell to the floor. His fellow trainmen at once came to his assistance and he was removed to the caboose of the freight train which his engine was pulling. Here he died a few moments afterward.

Mr. Gorman was a young man and has been boarding at No. 8 Mechanic street, Nebraska, in this city. He was unmarried and had a large circle of friends in this city, to whom his death will be a surprise, and it will be received with sadness, for he was a general favorite.

His remains were brought to this city this afternoon and they will be taken to Southern Ohio, near Cincinnati, his former home, for burial. Engineers Micheal McCarthy and Frank Murphy will accompany them. Mr. Gorman was a member of the Brotherhood of Locomotive Engineers and the funeral arrangements will be under the charge of that organization.

LATER.

Mr. Gorman left here yesterday at noon. He had lately recovered from a two weeks' illness, and just as he was to take his train for the west he remarked to Foreman P. J. Fallon that he was not feeling well, but he felt as if he ought to go on duty.

He was returning from Chicago when he was stricken down at Hammond. His remains will be taken to Blanchard, Ohio, where his mother resides, for burial. His brother, John, is in the superintendent of motive power's office at Cleveland, and will accompany the remains to Blanchard.

The deceased was thirty-six years old and was one of the best engineers on the Nickel Plate.

THE FIRE RECORD.

The Business Portion of Covington, Neb., Wiped Out—Other Fires.

COVINGTON, Neb., Jan. 31.—Eight saloons, three wholesale liquor houses and three restaurants, composing the principal business portion of the town, were burned early yesterday morning. Loss, $50,000; insurance $20,000. Nearly all the liquor was destroyed, and in consequence Sioux City will be very dry for a day or two.

DAVENPORT, Ia., Jan. 31.—Twenty thousand bushels of barley and malt were scorched or soaked by the burning of the malt house of the Bosch grain company here yesterday. The fire originated in the kilns. There is an insurance of $20,000 on the contents of the building, but it will not cover the loss.

FAVORING BRICK PAVEMENT.

A Petition Circulated Among East Wayne Street Property Owners.

Mr. E. B. Kunkle is to-day circulating a petition among the property owners of East Wayne street for a fire brick pavement on that thoroughfare.

At 2 o'clock Mr. Kunkle informed a SENTINEL reporter that he had the signatures of a large number and that a brick pavement is assured. The property owners will have a meeting to-night.

CORONER'S VERDICT.

In the Columbus Natural Gas Disaster—Carlessness Charged.

COLUMBUS, Ohio, Jan. 31.—Coroner Egan this morning rendered his verdict in the natural gas disaster of last week, by which five persons lost their lives and forty or more were injured. He finds that the explosion was directly due to the gross carelessness of Contractor J. C. Gilmey, who laid the pipes, in entirely failing to calk one of the joints.

Funeral Notice.

The funeral of the late Henry Schoue will occur Monday at 8:30 o'clock, from the house, 227 East Washington street, and at 9 o'clock from St. Mary's church. Rev. Father Oechtering will officiate. The funeral will be conducted under the auspices of the St. Bartholomew Benevolent association, the Knights of St. Charles and the Old Soldiers. The pallbearers will be John Baker, John Stier, Henry Stier, Henry Heitwinkle, Wm. Zahn and Joseph Ruthier.

The remains will lie in state at the residence to-morrow afternoon from 1 o'clock until Monday morning.

"MAMMA," said a little boy, "I'm so cold that my teeth are tittering."

A BANNER PRESENTATION.

Summit City Lodge, A. O. U. W., Celebrate Their First Anniversary.

Summit City lodge No. 36, A. O. U. W., celebrated their first anniversary last evening, at the hall, 106 Calhoun street.

A most entertaining program was rendered, consisting of a zither solo by Prof. Mueller, a solo by Miss Bates, a recitation by Miss Fessenden and address by Rev. S. A. Northrup.

These exercises were preceded, however, by a statement from Mr. N. Conover, reading the history of the order and alluding to its present healthy and flourishing condition. During the exercises Past Master Workman Dr. McCormick occupied the chair.

The surprise of the evening rested upon the presentation of a beautiful banner to the lodge, the donors being the ladies who are interested in the society. Mrs. George R. Rench made the presentation speech, and the gift was accepted by the society through Rev. Northrup, who fitly responded, by request, in the absence of Dr. A. P. Buchman.

A supper was served and a sociable time followed. Master Workman George R. Rench was present, and helped in looking to the welfare of those present, including reporters.

The lodge can congratulate itself for having celebrated the first anniversary in a very successful manner.

MRS. WILLIAM JACOBS.

A Pioneer Resident and a Noble Woman Passes Away.

This morning at 8 o'clock, at the residence, 171 East Wayne street, occurred the death of Mrs. Jacobs, widow of the late Wm. Jacobs, and mother of John Jacobs, the well known ex-shoe merchant. The deceased was born at Wooster, Ohio, and came to Fort Wayne with her husband about 1848, residing here ever since. Her husband established the "Jacobs Shoe Store" at the corner of Calhoun and Columbia street, when a small frame building stood on the present site of the Keystone block. Three children survive her as follows: John H., Mrs. Howenstine, and Miss Emma Jacobs.

Mrs. Jacobs was a member of the First Presbyterian church.

WORLD CHAMPIONSHIP.

The Coming Shooting Contest Between Erb and Beek.

A competitive shoot will be held at Lafayette on February 20, the principals of which will be Fred Erb, jr., of Lafayette, and J. G. Beek, both of whom are crack shots.

The contest will be for the championship of the world, in live bird shooting. Fifty live birds will be shot at.

The honor at present belongs to Mr. Erb, who has the prize silver urn, which was presented by the American Field, at a cost of $600. Erb won the championship from C. W. Budd, of Des Moines, Iowa.

The event is attracting a great deal of notice in this city, and a large number from here will attend, among whom will be W. W. Watson, W. R. Durfee, F. I. Brown and R. C. Ellenwood.

THEY don't mince matters much in the untrammeled West. The following advertisement appeared in a Kansas City paper the other day: Physician wanted—Immediately, to take charge of the largest country practice in Kansas, in an eastern border county; nine graveyards within the limits, no competition."

CHIEF ARTHUR, of the Brotherhood of Locomotive Engineers, is a short, compactly built man, about 50 years of age, with gray hair and short-cropped beard. He dresses fashionably and in excellent taste, and looks more like a banker than the head of nearly 30,000 engineers.

His election to the office has made no change in the quiet ways of Judge Morris, of Peckskill, N. Y. He is a pleasant looking quiet old gentleman, wearing a silk hat, and gray hair and whiskers, and he still possesses the mental vitality of success, to which his success in life is greatly due.

E. A. S. HAMILTON, Editor and Proprietor

FRIDAY, JAN. 31, 1890.

FOUR weeks from to-morrow is Washington's birthday.

THE birthday of Abraham Lincoln occurs February 12th.

TWO KINGS went to the wall in New York city yesterday.

THE first month of the new year ends with the close of this day.

THE Gresham men have captured the Indiana republican committee.

SUNDAY will be ground hog day. Will the little fellow see his shadow?

CHAIRMAN MICHENER was re-elected to that position last evening by the state republican central committee.

THE best method of paving the streets of the city is a question which is receiving a great deal of attention at present.

OUR merchants have lost thousands of dollars worth of trade this winter on account of the bad condition of the country roads.

EX-POSTMASTER GENERAL DON M. DICKINSON predicts that the democrats will sweep the west at the election next fall on the tariff issue.

THE first cash Millionaire John D. Rockefeller ever had was a quarter, which he is said to have earned working for a farmer to get money to go to the circus. He was then a poor boy, living near Owego, N. Y.

GENERAL MASTER WORKMAN POWDERLY denies that he is seeking office of any kind, and thinks that the report that he was to run for governor of Pennsylvania on the democratic ticket was started by some wag.

SPEAKER REED'S ruling created a rumpus in the house and the congressmen had a high old time. Reed ignored precedents and declared a quorum present when the roll call failed to show such a state of facts.

THE coming summer promises to be a busy one in the way of public improvements. If the contemplated street paving is done labor will be furnished plenty of employment and all branches of business will be benefitted by it.

HON. JOHN B. STOLL, of the South Bend Times, is not in favor of early conventions and long campaigns. He says: "June 14 is the date fixed by the democratic central committee of Allen county for the holding of the county convention. September would have been a vastly preferable date, but it takes time for some people to learn the advantage of a short campaign. All the counties will come to it sooner or later."

IN the Indiana supreme court yesterday the following decision was rendered: A debt due from an heir to his deceased father's estate can be retained out of his distributive share of the surplus proceeds of real estate which has been sold to make assets to pay debts of the estate, as against one who took a morigage upon the undivided interest of the heir in the land sold pending the settlement of the estate, with full knowledge of the indebtedness of the heir.

SPEAKER REED assumes the position that the republicans threatened to assume at the count of the vote between Hayes and Tilden—the presiding officer shall count. He insists that he shall count members present and not voting. That is to say, the democrats abstain from voting so as make "no quorum." Mr. Reed makes a note of those present thus abstaining, and orders their names entered into the roll as present, thus obtaining a quorum and deciding the question.

THE summary statement of commerce and immigration just issued from the treasury bureau of statistics shows that the number of immigrants landed at the six principal ports during the last calendar year was 426,738, against 518,526 during the year 1888, a decrease of 91,788. The arrivals at the six ports referred to comprise about 99 per cent. of all the immigration into the country, according to the chief of the bureau. It is to be noted, however, that they do not include the arrivals from Mexico and the British North American possessions, which, together with the arrivals from China, are not recorded at all, and have not been since July 1, 1885.

THE Rev. Dr. Lyman Abbott is drawing nearly as large congregations to Plymouth church as Henry Ward Beecher did in his last days. In his last Sunday's sermon Mr. Abbott took rather a pessimistic view of things. "The greed of the present day is a crying evil," he said. "The rich and the poor are being separated by a wider chasm. The danger in America is not so much in democracy as plutocracy. Greed and selfishness are responsible for fraud at the ballot-box, and then there is the abominable scramble for the 100,000 government offices. On one page of a newspaper we read of a fashionable ball, where gems flashed and costly satins rustled, and on another page of a starving woman, pressing her dying babe to her breast. The women of to-day care not for domestic duties as did their grandmothers."

John Allen, of Findlay, Ohio, is suing the Western Union Telegraph company for $5,000 damages for injuries to his wife's health on account of a mistake in a telegraph message. Mr. Allen sent a telegram to his wife at Groveland, N. Y., on March 12 last, to the effect that she should start for Findlay on the 14th and he would meet her at Fremont, Ohio. The telegraph operator in transmitting the message made it read "start to-morrow." This she did, and when she got to Fremont no one was there to meet her. She went on to Findlay, to meet a like disappointment, and was compelled to spend the night in the depot. She was in poor health and the whole affair so worked upon her nervous system that she became violently ill and has not yet recovered.

A railroad official, in speaking of several recent railroad disasters, remarked that the general impression was that a bridge is safer to run trains over than a trestle. Such is not the case. He said that where a trestle is properly constructed every four or five feet it has a solid bearing on the ground, while the bridge is suspended in the air, and often does not have a solid bearing for a distance of 150 or more feet. The trouble, however, he said, with trestles is that they are generally built to run trains over it, with the intention of later putting in probably a stone arch and then filling up the space occupied by the trestle, the arch forming the opening to let the water through; then the work of replacing the trestle with something more substantial is delayed, and sometimes too long.

WILL HE SEE HIS SHADOW?

The Groundhog Will Come Out of His Hole Sunday and Forecast the Weather for Six Weeks.

Next Sunday is groundhog day. The festive little fellow is in his hole now, but he will emerge from it on that day and his actions will determine the condition of the weather for the next six weeks to come.

He stays in his hole all winter, but on the 2nd of February of every year he comes to the entrance and peeps out. If he sees his shadow, so the legend runs, he dodges back into his hole knowing that there will be six weeks more of winter. If, however, he does not see his shadow the little cuss ventures out and plays around with the happy thought that his long sleep is over and spring is at hand.

The ground hog legend and its forecast of the weather is believed by hundreds of thousands in this country. In Germany it is the badger who goes through these gymnastics; in France and Switzerland it is the marmot; in England, the hedgehog; in the fables of Scandinavia, it is the bear, who wakes up in like manner, and, seeing the sun, goes back into his den. He then turns over and goes to sleep again, for he knows that winter is only half over.

The ground hog superstition is firmly believed in by the negroes of the south, who seem to have brought a similar fable with their love of brere rabbit from the shores of Africa.

Now the question arises, how does a small natural history fable like this appear simultaneously in three continents and repeat itself interminably through the ages? It is not because it has a foundation in truth, for one has only to take note of the absolute weather conditions on this and succeeding days to prove it a pure fiction. And yet people go on believing in the fable and repeating old proverbs about it such as "The farmer would rather see a wolf in his barn than the sun on Candlemas Day," or "As the sun shines in the door on the 2d of February, so far the snow will drift on the 2d of May," and so on.

The only foundation for the fable seems to be the general truth that pleasant weather in February is likely to be followed by a change and chilly spring. Such an occurrence rouses the canny Scotchman to profanity, for he says: "Of a' months in the year curse on February," and the Welshman is even more earnest in the matter, for he says: "The Welshman would rather see his wife on her bier than a fair February."

The man who tells the weather by the ground-hog's antics on the 2d day of February belongs to the crowd who foretell snow storms by the spots on a goose-bone and who guesses at mild or severe winters by the skins of the onions or the husks of the corn. With all due deference to the ground hog, wise as he may be, and wise as he may appear to act, we do not hesitate to say that as a weather prophet he is as dumb as an oyster and does not know half as much about it as the almanac makers.

The United States has the smallest standing army of all the great nations, and yet it spends almost as much per head for military purposes as Prussia or Russia. This is explained, of course, by the fact that we maintain the most liberal pension system in the world.

One Fact

Is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. It is sometimes said that the branches of very old trees are, properly speaking, roots, and that if planted upside down the trees would flourish. Herr Kny, a German botanist, has recently investigated the matter by planting vines and ivy with both ends in the ground, and subsequently cutting them at the arch. The experiments were fairly successful, though not in every instance, and Kerr Kny intends to continue them with other plants and trees, such as willows, poplars, and roses.

J. M. LOOSE RED CLOVER CO., Detroit:—Two years I was afflicted with a very severe attack of Erysipelas. After two physicians had used their treatment for several weeks and I continued growing blind, and in their diagnosis concluded that there was no earthly help or hope for me. I gave up, having tried all the remedies I knew or heard of. My neighbor, Mr. Miller, came in to see me one day, and said try Loose's Extract of Red Clover, as he had known of its working remarkable cures. I told him I had lost hope, that nothing would do me any good in the world. He insisted, and taking his hat went to the drug store and bought me one bottle and urged me to try it, which I did. Ten days afterward I sent for two more bottles, and it is wonderful how I improved. I continued using it and to-day I am better than I have been in years. No sign of erysipelas has shown itself and I heartily recommend it to suffering humanity as the greatest and best blood purifier in existence. Yours truly,

Great Improvements.

It is not many years ago since people travelled on horseback or by stages; now fifty miles an hour is not fast enough for them. Formerly people wrote letters that were weeks in reaching their destination; now the telegraph flashes thought around the world. Formerly doctors bled their patients for nearly every complaint; now they use advanced sciences of the highest order. Prof. Austin Flint, of Bellevue college, says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century." Prof. Henry Mott, Ph. D., Ph. C., S., says: "By a most careful analysis I have found Duffy's Pure Malt Whiskey free from adulterations or foreign substances, and it deserves to stand with great success." The well known Dr. C. W. Hutchinson, of New York, says: "I highly recommend Duffy's Pure Malt Whiskey and prescribe it extensively in my practice." Rev. H. Mills, of Princeton, Iowa, says: "I have used Duffy's Pure Malt Whiskey with great benefit to my wife, who is a confirmed invalid. I know from experience it is a pure and most valuable medicine. I am also using it in the case of my son, who is threatened with consumption. I am a Presbyterian clergyman and a doctor of divinity, but I am not afraid to recommend Duffy's Malt Whiskey as the purest and most efficient tonic that I know of, and my experience is a large one."

Hateful Blood Relations.

Hateful kindred are those sprung from the parent stem—malaria. They are chills and fever, bilious remittent fever, dumb ague and ague cake. These foes to bodily peace are all blood relations, as there is no doubt that these endemic complaints are produced by contamination of the blood by the miasmata existent in both air and water in unhealous regions. Hostetter's Stomach Bitters expels from the blood the virus with which miasma infects, but it does more than this. It neutralizes the atmospheric and aqueous poison and its germs before they have permanently inoculated the system, and thus effectually prevents against it the fierce inroads of this diabolical brotherhood of diseases. Thus it is not only a remedy, but also a preventive, prompt in relieving, lasting in effect, perfectly cathlical. Nervousness, biliousness, dyspepsia and kidney trouble also succumb to it.

THE DOCTOR'S PRESCRIPTION.

MRS. WINKLE.—Oh, doctor, I've brought little Johnny to see what you can do for him. He is growing so fast that his clothes won't fit him. Can't you prescribe something for him, doctor?

Dr. DOODAD.—Yes, I can. I would suggest a visit to THE C. O. D., 73 to 77 Calhoun street, where you can get him a suit of clothes that will fit him and leave less of his person exposed to the weather. At present he is too well ventilated.

MRS. W.—But I can't afford to buy him a new suit every few months.

Dr. D.—Yes, you can if you buy his clothes at THE C. O. D., for they charge less than any other place in town and besides you get better-made clothing.

Twenty-five per cent. discount from the price of any Men's, Boys' and Child's Overcoat in their house during January, is another reason why Johnny should be clad with something else than tatters. The learned doctor knows what he is talking about. So does
